DON'T HAVE MUSCLES?
MAKE THEM!!

This is what you are going to make:
and then incorporate

How you do this is entirely up to you

The idea is to construct a muscle from the outside in, from the deep fascia to the myofilament.

The components that MUST be precisely labeled are

- Myofilaments
  - myofibril
  - Sarcolemma
  - Muscle fiber
  - Fascicle
  - Perimysium
  - Endomysium
  - Epimysium
  - muscle
  - transverse tubule
  - sarcoplasmic reticulum

THE REWARD....SHOWASE NOTARIETY and 50 points
Due NO LATER than November 6th
No Partial credit given
No late entries accepted
